Statement of Principles for the Regulation of Transmission Revenues

Transmission Ring-Fencing Guidelines

Reporting Guidelines

Date: 23 October 2002
1. **Introduction**

The Transmission Ring-Fencing Guidelines require Transmission Network Service Providers (TNSPs) to provide certain financial statements and compliance reports at intervals determined by the ACCC and in accordance with any guidelines issued by the ACCC. The ACCC issued for comment (Draft) Reporting Guidelines under the Transmission Ring-Fencing Guidelines on 15 August 2002. No submissions were received in response to the Draft. This document sets out the (Final) Reporting Guidelines made by the ACCC on 23 October 2002.

2. **Transmission Ring-Fencing Guidelines: Reporting Obligations**

2.1 **Accounting Requirements**

Under clauses 7.3, 7.4 and 7.5 of the Transmission Ring-Fencing Guidelines, a TNSP that provides ring-fenced services must:

- establish and maintain a separate set of accounts for (a) the provision of ring-fenced services; and (b) its entire business;

- allocate any costs that are shared between the provision of ring-fenced services and any other activity; and

- if the TNSP is part of an economic entity, ensure that a separate set of accounts for the provision of ring-fenced services by that economic entity is established and maintained.

The accounts must be prepared in accordance with any guidelines that apply to the TNSP under clause 8 of the Transmission Ring-Fencing Guidelines. Clause 8 provides that the ACCC may publish accounting guidelines or, if the ACCC has not published any such guidelines, the TNSP may prepare accounting guidelines for approval by the ACCC. Under clause 14, the accounts referred to in clauses 7.3, 7.4 and 7.5 must be provided to the ACCC at least once a year or at reasonable intervals determined by the ACCC.

2.2 **Compliance Procedures**

Clause 12 of the Transmission Ring-Fencing Guidelines requires a TNSP to establish and maintain appropriate internal procedures to ensure it complies with its obligations under the Guidelines. Under clause 13, a TNSP must report to the ACCC, at reasonable intervals determined by the ACCC:

- describing the measures taken by the TNSP to ensure compliance with its obligations under the Transmission Ring-Fencing Guidelines; and

- providing an accurate assessment of the effect of those measures.
3. Reporting Guidelines: ACCC’s Approach

Under clause 6.2.5 of the Code, a TNSP must submit certified annual financial statements to the ACCC in a form and by a date determined by the ACCC. The statements may be used by the ACCC to, amongst other things, monitor compliance with the revenue cap, assess the allocation of costs, and determine future revenue caps. In addition, the ACCC may require the TNSP to provide other information or undertake an audit.

As indicated in the introduction to the Transmission Ring-Fencing Guidelines, the ACCC does not, at this stage, propose to publish accounting or auditing guidelines that impose obligations in addition to those applying to TNSPs under clause 6.2.5 of the Code. In preparing the Reporting Guidelines, the ACCC has also considered the matters set out in clause 6.20.2(d) of the Code. Accordingly, the objective of the Reporting Guidelines under clauses 8, 13 and 14 of the Transmission Ring-Fencing Guidelines is to ensure that the obligations imposed on TNSPs under clauses 7.3, 7.4, 7.5 and 13 of the Transmission Ring-Fencing Guidelines are consistent with the obligations under the Information Requirements Guidelines.

2. Clause 6.20.2(a) of the Code requires the Australian Competition and Consumer Commission (ACCC) to develop the Transmission Ring-Fencing Guidelines.

4. These Reporting Guidelines are made under clauses 8, 13 and 14 of the Transmission Ring-Fencing Guidelines.

5. The ACCC published these Reporting Guidelines on 29 October 2002.

Preliminary

6. In these Reporting Guidelines, unless the contrary intention appears, italicised expressions have the meaning given to them in:

   (a) this clause 6; or
   (b) if they are not defined in this clause 6, the meaning given to them in the Transmission Ring-Fencing Guidelines; or
   (c) if they are not defined in this clause 6 nor in the Transmission Ring-Fencing Guidelines, the meaning given to them in the Code.

Note: To avoid doubt, Code means the National Electricity Code as in force from time to time.

Information Requirements Guidelines means:

   (a) the publication released by the ACCC on 5 June 2002 pursuant to clause 6.2.5 of the Code, entitled ‘Statement of Principles for the Regulation of Transmission Revenues: Information Requirements Guidelines’ as amended from time to time; and

   (b) any additional obligations imposed on the relevant TNSP by the ACCC, from time to time, pursuant to clause 6.2.5 of the Code.

Note: As at the date the Reporting Guidelines were released, the ACCC had not imposed any additional obligations on any TNSP under clause 6.2.5 of the Code.
7. In these Reporting Guidelines:
